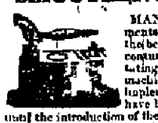
ANOTHER LARGE LOT OF PATENT SELF HEATING SMOOTHING IRONS!



MANY important improvements have been made since the beginning of the present century, relieving mankind from fatiguing labor of men by machinery and other modern implements; but few can have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, and very great degree, from the excessive and fatiguing labor of ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Dressmakers' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Land to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, for which they have not received Land.

One hundred and forty acres to all who have served and have received Land.

Eighty acres to all who have served and have received Land.

And if the soldier is dead, then to his widow, without obtaining any Letters of Administration; and if no widow, to his Minor Children.

Service in the Revolutionary War or the War of 1812—one day in the Indian Wars, is equivalent to a month's service.

And all who served the above periods in the Militia of the State of Maine in the year 1839, which is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the 5 days called out by State Authority, and who served the above period, and who, on similar basis, have been paid by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and diligence, and upon as reasonable terms as other Agents.

He has in use Muster Rolls and Copies in all the counties, and can supply any full rolls of the Muster Rolls of 1839 for the Aroostook service in 1839.

As his charges are to be made in addition to the claim, he ventures to rely upon his long and well known experience and success in these claims for patronage. He will, if preferred, Purchase the Land Warrants at their value.

Any Applications may be made to him at his Office, or if more convenient by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

Would the Country be Ruined by Stopping the Liquor Traffic?

A terrible tempest has arisen among the liquor dealers in the city of New York, in view of the anticipated consequences of the enforcement of the new liquor law. Meetings are held, day and night, to devise means for defeating or nullifying the law, and every press in the interest of the dealers—the New York Herald taking the lead, of course—are dealing out long columns of fiery denunciation and doleful prophecy. Incendiary handbills are posted in the streets, and copied into the Herald, calling upon the people "to defend their liberties,"—and last and most terrible the hotel keepers are threatening to raise the price of board, in order to make the people pay for the liquor that is n't to be drank. (It may be argued, by the way, that if people can't spend their money for liquor they can afford to pay more for board, and still be the gainers comparatively.)

But the most serious prediction made by these gentlemen is, that if the law is enforced it will bring revulsion and ruin upon the country—that it will cause a general commercial crisis, which will result in more disastrous effects upon the prosperity of the country, than any which have heretofore been experienced. This idea is seriously put forth by the Herald and its kindred prints, and vehemently urged upon the commercial community. Now if it be true that the business prosperity of this country, or even of its great commercial emporium, New York city, depends upon the continuation and success of the liquor traffic—if the amount of intoxicating liquors, imported and exported, manufactured, sold and drank in the United States is so vast as by the cessation of the business to bring revulsion upon the business of the country—what a subject for thought does it present! What a contemplation in the nineteenth century! A whole people to be ruined by becoming temperate! Universal bankruptcy to follow from the disuse of an article which never did nor never can put a dollar into the pocket of any man by using it—but which, on the contrary, has taken in the aggregate, hundreds of millions out of the pockets of the great bulk of the community, to enrich a few manufacturers and dealers who know too much to drink it themselves! The business of the country to be destroyed, by making contraband an article which unfits for business nine-tenths of the men who use it!—Preposterous idea! Were it possible to stop entirely the use of liquors as a beverage, throughout the country, the people would be immensely the gainers, in a pecuniary point of view, not only in the liquor they would save but in the money they would make—for it would bring into active, enterprising, business habits, thousands, if not millions of men who are now absolutely unfit for business in consequence of their fatal indulgence in the wine cup. The resources of the country would be more rapidly developed the land would be more extensively cultivated, and the products of nature, now to so large an extent worse than wasted in the production of liquid ruin, would be put to their legitimate use and go to form the bread for the now starving families of many a poor drunkard. So the the balance between the injury and the benefit to the country which would result from an *effectual* liquor law throughout the land, and it would be found immensely in favor of the latter. In a city which is the head quarters of the liquor trade of the country, and which sustains eight or ten thousand retail liquor shops, the sudden stoppage of the traffic (which, by the way, we do not think can be effected in New York) would doubtless injure the business of a great many people, for the time being. But it would drive them into more reputable employments, and, by taking away the greatest cause of crime and disaster to the people, would, in the end, prove an untold blessing to the city, and an incalculable benefit to its business interests. The evil would be partial, but the benefit universal, if the new liquor law could be fully enforced.—The most that can be expected, a present, however, in the city of New York, is a material restriction of the traffic. By and by, public opinion there will be prepared for its entire suppression, as the people become convinced that it will be for the benefit even of the business interests of the city.

AN EXTRAORDINARY FUEL, COAL MADE. A new invention is announced by a Southern—Nothing less than turning common clay mud, "by a very simple process," into an excellent combustible substance for fuel. (What a mine of wealth we've got in Bangor!) The mud is first chemically "prepared," and then rolled up into cannon-balls, and baked; after which it may be thrown into a common furnace, and put to the uses of anthracite coal. The preparation is said to be so cheap that the "Pyramentum," as it is called, can be furnished, ready for burning, at twenty-five cents per barrel. It will answer all the purposes of coal, and produces no smoke in combustion. The New Orleans Delta folks have given it a public trial in their engine room, and endorsed it fully. We hope the inventor will call up this way. We should admire to extract our next winter's coal from the clay-bank on the next street.

A REASON FOR THE CHANGE—PERHAPS. It may be presumed that one reason for the more pacific disposition towards Spain, suddenly manifested at Washington, is to be found in the fact that official declarations have just been made at Madrid that Spain will protect and cherish slavery in Cuba, and that the report of its intended abolition are all moonshine.—The Southerners are thereby greatly mollified.

PORTLAND. Joseph Ring has been elected Alderman in Ward 4 and W. W. Thomas in Ward 6, to fill vacancies caused by the declination of Rufus E. Wood and Nathan Cummings.

A MAMMOTH RAILWAY.—We understand that Messrs. Pendleton and Reed of this city have made all the contracts and arrangements for building, and will immediately commence the construction of a first class double-track marine railway, on the Brewer side of the river, near the canal. One of the tracks will be 600 feet long, with a descent of five-eighths of an inch to the foot—the cradle for the vessel to be 150 feet long and 40 wide. This track will accommodate vessels as large as 800 tons, of 150 feet keel.

The second track will be 386 feet in length, with a descent of three fourths of an inch to the foot—the cradle to be 95 feet long, and 34 wide—and accommodating vessels up to 250 tons burthen and 95 feet keel.

The work of constructing the railway is under the superintendence of Mr Horace J. Crandell, civil engineer and marine railway builder, of New Bedford, Mass.—and the cost is to be about $20,000.

This is a work which has long been needed, and one which will furnish very desirable facilities to owners and masters of vessels. We trust and believe it will also be found profitable to its enterprising projectors and builders.

POLICE COURT, April 20th.—Timothy McCarty, for selling spirituous liquor contrary to law, was fined $20 and costs. Timothy was also convicted for a second offence, and fined $20 and costs.

In case of State vs. Thomas Dolan, for having intoxicating liquor in his possession intended for unlawful sale, was commenced, but not concluded. Wakefield for government; Brown for defence.

MINISTERIAL CHANGE.—Rev. Mr Allen, pastor of the Union-street (Unitarian) Society has received and accepted a call to settle elsewhere, and his connection with the Society here, (as he said yesterday,) will cease with the close of the present month. The place of his new location was not intimated; but we understand the position is an advantageous and desirable one.

The General Knox was obliged to put in at Cape Ann on Friday night, in consequence of the storm, and did not arrive here until Sunday morning.

The steamer Boston remained in Boston harbor Friday night. She left on Saturday, and arrived here yesterday, at about one o'clock.

ARSON. The barn of William Rand, Esq., at Winter Harbor, was burned on the night of the 11th, with all its contents, among which were several oxen and cows, sheep and lambs, hay, farming tools and timber. The barn stood within five rods of the dwelling-house, and is supposed to have been fired by an incendiary, with the expectation of burning the whole establishment. We learn these facts from the Ellsworth American.

A "BEER CARNIVAL TIME." The District Attorney of New York city has given his opinion, in reply to an enquiry from the Mayor, that between the 1st of May, when a license expires, and the 4th of July, when the liquor law goes into effect, every person may sell liquor with perfect impunity, Sunday included. The ordinance prohibiting the sale of liquor on Sunday, was repealed by the Common Councilmen on the 19th.

THE PUBLIC LAWS.—Our subscribers will find an extra sheet accompanying this number of our paper, with the public laws passed at the last session of the Legislature. They are nearly double the usual amount, notwithstanding the shortness of the session.

NEW POST OFFICES.—A post office has been established at Southport, in this State, and Freeman Grover, Esq., appointed postmaster.

The travelling in the country has been very bad for the last week or two. The western mail due in this city at one or two o'clock, A. M., has not been received until six or seven, and sometimes later. The roads, however, will soon be in better condition.

Now is the time to destroy the coming crop of caterpillars. The eggs may be taken from the trees with facility, and destroyed before they are hatched out. The warm weather is already operating upon them, and if not soon attended to, the mischief will be done. We have seen the young worms already out in some places.

TORNADO IN WESTERN NEW YORK.—On the morning of Wednesday last there was a terrible tornado in Western New York. The Buffalo Democracy says.

"At Niagara—mouth of the river—the extensive car manufactory of Brainard, Pierce & Co. was almost entirely demolished; carriage around $20,000. The building was of wood, some 200 feet long, and about 70 wide. A great number of dwellings were unroofed, and some utterly ruined. The gable end of the Scotch Presbyterian Church was blown in, and the building generally injured. A daguerrean standing in the street was hurled over, and the artist and his little son seriously hurt, the latter supposed fatally. A railroad car standing on the track was lifted up bodily, and carried some four rods. Two other cars were lifted up, and the blowers up, off the rails, were not to be seen after [illegible] had passed over, and were supposed to have foundered."

At the suspension bridge the blow was most violent, but it was not injured, and no alteration was perceptible when the gale was at its highest pitch.

Death of an Aged Revolutionary Pensioner.—Intelligence has been received at the Pension Office of the death of Hugh Harris, a soldier of the Revolution. He died at Jonesboro', Tennessee, on the 13th of February, at the age of 110 years.—He was married, to his wife, who is in receipt of a pension as his widow, in the ninetieth year of her age.

People's Bank. It will be seen that the corporators of the People's Bank, at this place, propose an immediate organization under their charter.—The proposed capital stock is $50,000, which we presume will be readily taken in Waterville and vicinity.—*Waterville Mail*

IRON PAVEMENT.—The Committee on Paving, of the Boston city government, are about to close a contract with the proprietors of Terry's Patented Iron Pavement, to pave Washington street, from Summer to State—joining with that portion of Court street already paved with that material—for the sum of $70,000.—The abutters will give pecuniary aid to the enterprise.

It was voted that the arrangement of the present Revised Statutes in titles and chapters be followed in the new revision as far as practicable.

It was farther voted that as a preliminary step, each Commissioner shall separately examine and note:

A WAR WITH SPAIN. The Washington correspondent of the Baltimore Sun, who is a supporter of the administration, writes the following with regard to the consequences of a war with Cuba, and as to who are the persons to be benefited by it:

Some of our newspapers, and particularly some in the chief commercial cities are quite clamorous for a war with Spain. There are classes in every community that are to be benefited by war—it affords a harvest for contractors, and creates a capital for politicians. What the producing and commercial interests of the country will gain by a war, may be seen by a glance at the consequences.

Our exports and imports must cease, for the privateers under the Spanish flag will sweep our vessels from the ocean. It will afford employment for our filibusters—for they will find American commerce an easier, as well as richer prey, than the Spanish. Our cotton, products and all our staples for export, when cannot be consumed at home, will rot on our hands. Our Mediterranean commerce will be at the mercy of Spanish cruisers, issuing from every port on that sea.

Cuba and Porto Rico will afford snug nests for Spanish privateers and pirates, but we can rid ourselves easily of that nuisance, by taking Cuba and Porto Rico at once. We can do this as easy as the French and British have taken Sebastopol and Cronstadt, and of course without more expense of life or treasure. The British and French allies of Spain are not of more practical account, and it is not necessary therefore to make provision for them probably. In fact we must so be (?) and bombast has it, go in war without so regard to cost.

Granting, then, that we may take Cuba and Porto Rico at a hop, skip and jump, we will have nothing to do then but seize old Spain—and, perhaps, the peninsula will be a more easy conquest than the Island.

It would hardly require much activity on the part of privateersmen, under the Spanish flag to drive our commerce from the ocean, because that would soon be effectually done by the enhanced rate of insurance on American vessels, which would throw out trade into foreign ports.

But there is to be no war—none at present,—none under this administration,—unless possibly, it might be forced upon us in such a manner that the public voice would demand it. There is no probability that Spain will make war upon us—she has no pretext for it, for it cannot be pretended that on the part of this government, any "outrages" have been committed against Spain. All the "outrages" have been on the other side.

For aught that appears to the contrary, Commodore McCauly has gone on a cruise of peace.—He may be the bearer of some notice to the Cuban authorities of the wish of this government to preserve peace, and avoid collisions whereby other part may be exasperated. He may remonstrate against the search of our vessels for filibusters, should any such attempt be again made, beyond the line of a marine league from the coast, within which the Cuban police may be strictly and properly exercised.

MELANCHOLY DEATH IN APPLETON. Ambrose Arnold, Esq., a highly respectable citizen of Appleton, was found dead in a small stream a short distance from his house, on Saturday 14th inst.—He left home in the afternoon, for the post office, by a cross route, and it is supposed, that in attempting to cross the stream on a log, he fell in and was probably stunned and rendered helpless by the fall.

The current was very rapid. The body was found a few feet below, entangled in some brush, where the water was about two feet deep.—*Progressive Age*

IOWA. The entire Republican State ticket has been chosen by majorities largely increased over those of last year, while Des Moines, Lee, Davis, and several other counties which gave Democratic majorities have now been revolutionized. In fourteen counties the vote is as follows:

Republican State ticket	5621
Democratic " "	2117
Majority	3480

The same counties last year gave an anti-Nebraska, of only 517. The majority for Grimes in the entire State in August was 2486. This year the majority will not be far from seven thousand.

In the same counties, the new prohibitory liquor law has been adopted by a majority of [illegible].

A FIRE, AVERTED.—At 12 o'clock on Thursday night, Walter Corey's establishment was discovered to be on fire by his watchman, just in time to prevent one of the greatest fires ever known in this city. A mill bag filled with oily rags and oakum, standing in the middle of one of the rooms filled with furniture in the second story of one of the workshops, took fire from spontaneous combustion, and got so far under way that the light was seen by the watchman through the cracks of the floor, he being in the story below. But for the timely discovery by the faithful watchman, Mr Chas. Mitchell, a disastrous fire would in all probability have been the consequence.—*State of Maine*

The New England Conference of the Methodist Episcopal Church, after a session of several days at Chelsea, dissolved last evening.—The Conference of next year will be held at Salem. The new liquor law was endorsed, and a promise made to give it a hearty support.—The peace question was settled on the passage of a resolve, that international Courts are a Christian mode of settling national disputes.—*Boston Journal*, 18th.

THE CALIFORNIA EMIGRATION.—We were made to say the reverse of what we intended to represent as the effect of the competition now existing between the rival lines to California, which is to reduce the price of passage; so that instead of $150 for a steerage passage, only $75 is charged for the Northern night of the Nicaragua line; $175 for first cabin, and $125 for second cabin.—*New York Journal of Commerce*.

SEVERE LOSS BY FIRE.—On Monday, afternoon, (16th), the wharf on the opposite side of the river, used by Geo. F. White & Co., as a storehouse for stock used at their paper mill, was destroyed by fire, with the contents, consisting of bales of rags of the value of about $6000. No insurance.—*Belfast Journal*.

Com. Vanderbilt is spoken of for the Presidency. He has published letter to several members of the New Jersey Legislature, giving his opinion of matters and things in general.

A LAWYER IN TROUBLE.—Judge Hoar, of the Municipal Court, reprimanded William H. Perrin, Esq., a young lawyer, and suspended him from practising in that Court until June 1st, for having called the jurors "skunks," and intimated to one of them that a disagreement in certain liquor cases, he had charge of would be just as good as an acquittal, adding, "I shall rely on you."—*Boston paper*.

STEAMBOAT EXPLOSION—TEN MEN KILLED. *Detroit*, April 20.—The propeller Oregon of Cleveland, exploded her boiler this morning, about four miles above this place. Ten men were killed, and six or seven more or less injured. The boat was completely shattered, and sunk shortly after.

WASHINGTON, April 20.—The organization of the new Court of Claims in this city, has not yet taken place, but is looked for soon.

Chief Justice Gilchrist is now here, and Judge Blackford has been in the city for several weeks. Judge Lumpkin is expected to arrive in a few days.

FIRE. On Friday, the 13th inst. a new dwelling-house was almost totally burned, situated near Bernard Ingraham's. The house was owned by Messrs Jocland Perley Fiske, who have recently erected it. We understand that its value was about 1800 dollars, and that it was insured for one thousand.—*Rockland Gazette*

DR CURTIS—Dear Sir:—Having witnessed the excellent effects of your Hygeana or Inhaling Hygean Vapor and Cherry Syrup, in a case of chronic Bronchitis, and being much in favor of counter irritation in affections of the throat, bronchial tubes and lungs, I can therefore cheerfully recommend your Medicated Apparatus as being the most convenient and effectual mode of applying any thing of the kind I have ever seen. I wish, for the sake of the afflicted, that it might be brought within the reach of all.
Rev. Hector Cheever writes:—
